

**Full Job Description**  
**Director of Sustainability Solutions**

Denison Technologies is seeking an experienced Director of Sustainability Solutions whose primary responsibility is to oversee and accelerate progress and performance on solutions delivered to our customers and partners to support achievement of the environmental, social and governance (ESG) goals and targets for large industrial, infrastructure and commercial operators

**Responsibilities**

- Guide and steward strategy, implementation and management of corporate power quality, energy management and sustainability solutions strategy working as a core member of the management team
- Develop, manage and deliver external power quality, energy management and sustainability programs and solutions
- Engage with internal and external stakeholders
- Facilitate programs and solutions that lead to tangible, measurable improvements in power quality, energy management and ESG related metrics
- Develop, communicate, coordinate internal initiatives across different business functions partnering with key subject matter experts across industry, partners, authorized distributors and key customer stakeholders
- Monitor and maintain awareness of ESG trends, benchmarking and trend analysis
- Respond to and manage surveys from investors and other key stakeholders
- Maintain relationships with applicable external authorities, industry representatives and professional organizations
- Partner with the executive management team to lead/champion key governance and social initiatives including ESG and Sustainability Policies and Guidelines, Partnerships, Diversity and Inclusion including Board and Management Diversity and Pay Gap, Human Capital Development, Charitable Giving Programs, Occupant Health and Safety, and Health and Wellbeing

**Qualifications**

Areas of experience shall include ESG reporting, corporate social responsibility, climate resilience and risk mitigation and adaptation, net zero, decarbonization and renewable energy, building energy and water efficiency, waste management and emissions reduction strategies

**Required**

Proficiency with reporting frameworks including 50001, SBTi, GHG Protocol, GRI  
Knowledge of Climate Risk Measures and ability to establish a framework for measurement  
Understanding a wide landscape of regulatory policy and compliance requirements  
Professional experience working with industrial, manufacturing and large commercial customers.  
15+ years professional experience in Corporate Sustainability Management, Industrial Manufacturing, Sustainability, or related field

Excellent quantitative skills and established analytical ability  
Familiarity with industrial systems and processes, local/state benchmarking regulations  
Experience managing relationships and setting expectations with sustainability and ESG teams, operations and engineering professionals and project teams  
Strong organizational skills and attention to detail with the ability to manage multiple projects simultaneously.  
Excellent communication, teamwork, and interpersonal skills  
Ability to work independently and collaboratively  
Performance oriented with the ability to adapt to meet the needs of the company.  
Excellent customer service and people skills  
Public speaking skills (industry conferences, meetings with internal and external domestic and global teams).  
Experience/familiarity with data management tools and reporting  
Proficiency with MS Office applications, (Excel, Word, PowerPoint, and Outlook) & ability to learn new applications

**Preferred:**

Master's Degree or related experience in field  
Bachelor's Degree with a Major(s) in Environmental Science, Architecture, Engineering, Energy.  
Professional credentials and licenses such as CPQ, CEM, LEED AP, etc.  
Ability to manage, manipulate and analyze utility billing and usage data (energy, water, waste, emissions)  
Experience with key reporting frameworks including TCFD, CDP, SASB and GRI, among others  
Knowledge of and experience with leading industry partners such as Rockwell Automation, Siemens, ABB an, Schneider and related authorized distributors, their solutions in related fields  
Experience/familiarity with Microsoft collaboration tools including Sharepoint and Teams

**Language:**

Fluent in English. Exceptional written and communication skills.

**Perks/Benefits:**

At GR we recognize that exceptional people need exceptional rewards. Beyond our competitive total compensation packages, your schedule at GR will provide you with a quality of life that is difficult to achieve within hospitality or hotel roles. Additionally, our benefits package reflects our respect for workplace contributions, professional goals and personal priorities.

**Other benefits included:**

Company subsidized medical, vision and dental plans  
401(k) plan with up to a 4% matching contribution  
Company paid life and disability insurance  
Employee Profit Sharing Plan  
Vacation time or paid time off (PTO)  
Volunteer paid time off  
New parent paid benefit

Job Type: Full-time, immediate hire

Pay: Negotiable

Posting Date: April 1, 2022

Qualified applicants are encouraged to submit CV and apply to: [austin.dumbri@denisonconsultinggroup.com](mailto:austin.dumbri@denisonconsultinggroup.com)
